CATALOG

trademark of **vistalina**[®]

Dear Stakeholders,

As Vistalina Textile, we have been proudly operating in the medical sector since 2020, building upon strong foundations that date back to 1989. Now led by the second generation, our company has grown through continuous innovation and dedication, achieving a reputable position in Gaziantep and expanding its presence across global markets through a commitment to trust, quality, and consistency.

This catalog has been carefully prepared to provide an overview of our manufactured medical products and to reflect the standards and values that guide our work. Beyond the products featured here, Vistalina operates in diverse industries, including textile apparel, export and import consultancy, construction, e-commerce, and food production.

Our company continues to evolve with a portfolio of distinctive brands:

Zermini, bringing joy and comfort to children through creative textile designs.

Kayacan İnşaat, delivering reliable and enduring construction solutions.

Dispofly, specializing in high-quality disposable medical products trusted by healthcare professionals worldwide.

With each of these brands, we aim to combine innovation, reliability, and customer satisfaction under one vision — the Vistalina commitment to excellence.

We extend our heartfelt gratitude to all our business partners, employees, and stakeholders for their continued trust, collaboration, and support on this journey of growth and success.

On behalf of Vistalina Company,
Mustafa KAYA

The Dispofly Medical Waste Bags are designed for the safe and hygienic disposal of medical and infectious waste generated in hospitals, laboratories, and healthcare facilities.

Produced from high-density polyethylene (HDPE) or low-density polyethylene (LDPE) materials, these bags ensure exceptional tear and puncture resistance while maintaining flexibility.

Each bag features a clearly printed biohazard symbol, ensuring compliance with international medical waste management standards.

Dispofly waste bags are leak-proof, durable, and color-coded, supporting safe segregation and disposal processes.

Reliable, compliant, and safe — Dispofly ensures hygiene and safety at every step of medical waste handling.

Feature	Description
Product Type	Medical Waste Bag
Brand	Dispofly
Material	LDPE / HDPE (optional)
Color	Red (custom colors optional)
Thickness	25–60 microns
Print	Biohazard symbol and warning text
Capacity Options	Mini, Medium, Large, Maxi
Closure Type	Tie or heat-sealed
Leakproof	Yes
Tear Resistance	High
Usage	Hospitals, laboratories, clinics, medical facilities
Certifications	CE, ISO 9001, ISO 13485
Packaging	10 pcs / roll — 20 rolls / per box — 24 boxes / per pallet 33 pallets (158,400 pcs) / per truck
Shelf Life	5 years (stored in a cool, dry place)

Dispofly Disposable PE Aprons provide maximum protection, hygiene, and practicality across a wide range of professional environments — including hospitals, laboratories, food processing, and cleaning sectors.

Manufactured from high-quality polyethylene film, these aprons act as an effective barrier against liquids, stains, and contaminants, ensuring superior cleanliness and safety.

The lightweight yet durable design allows for comfortable movement and full body coverage, while the smooth waterproof surface ensures easy cleaning and resistance to fluids.

Each apron is designed for single-use, helping maintain a sterile and hygienic workspace.

Available in various thicknesses and colors, Dispofly aprons can be customized with logo printing and size options to suit diverse industry needs.

Clean. Safe. Practical.

Dispofly — trusted protection for professional use.

Feature	Description
Product Type	Disposable PE Plastic Apron

The Dispofly CPE Shoe Covers are designed for maximum protection and hygiene in environments where cleanliness is critical.

Made from durable Chlorinated Polyethylene (CPE) material, they provide excellent liquid resistance and enhanced durability compared to standard nonwoven alternatives.

The embossed texture ensures improved grip and slip resistance, while the elastic ankle cuff guarantees a comfortable and secure fit.

These covers are ideal for medical facilities, laboratories, cleanrooms, and food industries, ensuring the highest level of contamination control.

Strong, waterproof, and hygienic — Dispofly CPE Shoe Covers protect every step.

Feature	Description
Product Type	Disposable CPE Shoe Cover
Brand	Dispofly
Material	Chlorinated Polyethylene (CPE)
Color	Blue (custom colors optional)
Weight	2.0–3.5 grams per piece
Design	Embossed surface, elastic ankle cuff
Water Resistance	Excellent (fully waterproof)
Slip Resistance	High (textured grip)

The Industrial Medical Waste Bins are specifically designed for safe and hygienic disposal of medical, biological, and chemical waste generated in hospitals, laboratories, and healthcare facilities.

Constructed from high-density, impact-resistant plastic, these bins ensure long-lasting durability and easy disinfection.

Each bin features a color-coded design (red, yellow, and blue) in accordance with international waste segregation standards — allowing medical staff to easily identify infectious, recyclable, and general waste categories.

The hands-free foot pedal system minimizes contamination risk, while the airtight lid prevents odor leakage and exposure to hazardous materials.

Available in multiple sizes, these bins are ideal for hospitals, clinics, and laboratories seeking compliance with health and safety regulations.

Feature	Description
Product Type	Industrial Medical Waste Bin
Material	High-Density Polypropylene (HDPP)
Available Colors	Red (infectious waste), Yellow (chemical waste), Blue (general/recyclable waste)
Design	Foot pedal operated, airtight lid, stackable and easy to clean
Capacity Options	30L, 50L, and 70L
Temperature Resistance	Up to 110°C
Compliance	EN ISO 23907-1, WHO waste management standards
Use Areas	Hospitals, clinics, laboratories, medical offices, industrial sites
Disinfection	Can be disinfected with alcohol-based or chlorine solutions
Reusability	Reusable after cleaning and sterilization
Packaging	Stackable packaging for efficient logistics
Shelf Life	10 years under proper use and maintenance

The Dispofly Disposable Nonwoven Bouffant Cap provides optimal hygiene and protection in medical, food service, and cleanroom environments. Crafted from lightweight, breathable, and hypoallergenic polypropylene (PP) nonwoven fabric, it ensures comfort during long hours of use while effectively preventing hair contamination.

Designed with elastic edges for a secure and gentle fit, these caps adapt to all head sizes without causing discomfort or skin irritation. Ideal for healthcare professionals, laboratory staff, and production line workers, Dispofly bouffant caps represent the perfect balance of comfort, hygiene, and durability.

Feature	Description
Product Type	Disposable Nonwoven Bouffant Cap

SPUNBOND SHOE COVER

The Dispofly Spunbond Shoe Covers provide protection against dirt, dust, and light liquid splashes, ensuring a clean and hygienic environment in hospitals, laboratories, and production facilities.

Manufactured from 100% polypropylene (PP) spunbond nonwoven fabric, these covers are breathable, durable, and lightweight, offering excellent comfort for long use.

Designed with elastic ankle cuffs to fit securely over most shoe sizes, Dispofly shoe covers prevent contamination and maintain a sterile working area.

They are an ideal solution for medical, industrial, and cleanroom applications, where hygiene and safety are essential.

Hygienic, strong, and practical — Dispofly keeps every step protected.

BABY WET WIPE

Dispofly Baby Wet Wipes are specially developed for the delicate and sensitive skin of babies. Each wipe is enriched with gentle, skin-friendly ingredients that help clean, moisturize, and protect — ensuring the highest level of care from the very first use.

Free from alcohol, parabens, and harsh chemicals, our wipes are dermatologically tested and pH-balanced to maintain the natural softness of baby skin. The ultra-soft, durable fabric provides effective cleaning without irritation.

Produced in hygienic facilities and sealed for freshness, Dispofly Baby Wet Wipes offer parents the peace of mind they deserve — safe, pure, and perfectly designed for everyday baby care.

Dispofly Adult Wet Wipes are designed to provide superior cleanliness and comfort for daily personal care. With a soft, durable texture and balanced moisture content, they ensure effective cleansing while keeping the skin refreshed and hydrated.

Formulated with gentle ingredients, our wipes are free from alcohol, parabens, and harsh chemicals, making them suitable for all skin types — including sensitive skin. Each wipe delivers a refreshing and hygienic touch, ideal for use at home, in healthcare environments, or during travel.

Produced under strict hygiene and quality control standards, Dispofly Adult Wet Wipes combine safety, practicality, and convenience in one package — offering the perfect balance between protection and comfort.

SURFACE CLEANING WIPE

Dispofly Surface Cleaning Wipes deliver a deep and effective clean for all types of washable surfaces. Designed to remove dirt, grease, and everyday mess with ease, these wipes leave no streaks — only a fresh, spotless shine.

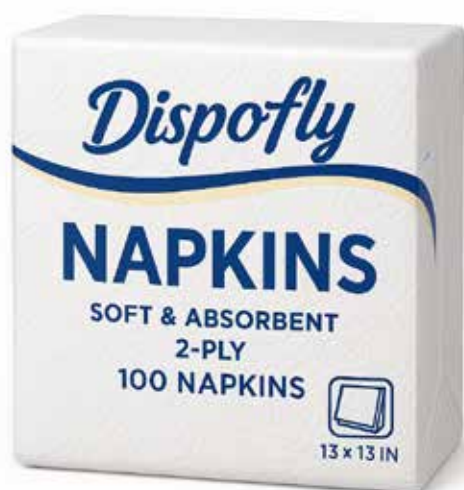

Each wipe is infused with a balanced cleaning formula that cuts through grime while being gentle on surfaces. Perfect for kitchen counters, glass, furniture, and electronic devices, they provide quick convenience without compromising on hygiene.

With their refreshing scent and quick-dry performance, Dispofly Surface Cleaning Wipes bring a sense of cleanliness and freshness to every touch.

Deep cleaning. Streak-free. Freshly clean — anytime, anywhere.

Dispofly respects people, nature, and all living things. In this context, we support many sustainability projects in our products, including efficient use of water, solar energy, and recycled packaging.

Dispofly Table Napkins combine elegance, softness, and practicality for everyday and professional use. Made from high-quality 2-ply tissue paper, these napkins are soft to the touch yet strong enough for reliable absorption. Perfect for homes, restaurants, hotels, and catering services, Dispofly Napkins bring both functionality and style to any table setting.

With customizable packaging and branding options, Dispofly ensures that your product presentation matches your brand identity. Designed for convenience and hygiene, these napkins are ideal for all dining occasions — from casual meals to fine dining experiences. Soft. Absorbent. Elegant. Dispofly — everyday quality you can feel.

Dispofly Underpads are designed to deliver maximum comfort, hygiene, and protection in every use. Developed with advanced absorbent technology, they effectively capture and lock in moisture, keeping surfaces dry and clean for extended periods.

Each pad is made with three high-performance layers:

A soft, skin-friendly PP top layer for gentle contact and comfort.

A super absorbent SAP core that ensures fast liquid absorption and odor control.

A waterproof PE backing that prevents leakage and keeps bedding or surfaces fully protected.

Dispofly Underpads are suitable for hospital, clinical, and home care environments, providing exceptional hygiene for patients, elderly care, and post-surgery use. Their soft quilted surface and durable structure make them ideal for both medical professionals and personal use.

Super Absorbent. Skin-Friendly. Leak-Proof.

Dispofly Underpads — reliable protection, every time.

EXAMINATION TABLE PAPER

Examination Table Paper Rolls are designed to ensure maximum hygiene, comfort, and convenience during medical examinations. Manufactured from premium cellulose or nonwoven materials, they provide a soft yet durable surface that protects the examination table while maintaining patient comfort.

Each roll is precision-cut for smooth unrolling and easy use. Available in a variety of widths and lengths, Dispofly rolls are compatible with most standard medical couches and dispensers. The clean white finish gives a professional look suitable for clinics, hospitals, and beauty or wellness centers.

Hygienic. Comfortable. Professional.

Dispofly — quality protection for every examination.
